

SAMPLE INSPECTION FORM, FALL PROTECTION EQUIPMENT, SAFETY HARNESS

Inspection Checklist / Log

Harness Manufacturer: _____ Manufacture Date: _____
 Unique Identification Number: _____ Purchase Date: _____

Instructions: This checklist is designed to assist with inspection of the body harness and its attachments for wear, defects or damage. Inspection of fall protection equipment is a regulated requirement to be done before each use as well as once a year. Failure of the inspection process or loss of faith in any component indicates the entire unit must be removed from service. "Loss of Faith" can be for a multitude of reasons, such as a fall, contact with a bad substance, or other obvious damage (i.e. dropped off roof, run over by a truck, stains) to age. If there are reasons not listed on this inspection form, loss of faith would be selected. The completed inspection checklist must be maintained so it is readily available for review.

Note: This is a sample checklist that may need to be modified to meet site-specific requirements, standards or practice and/or specific manufacturer's instructions for variations of approved fall protection equipment.
